Case Study

SA Taxi

Metrofile Cloud Backup Solution for SA Taxi

1

The Challenge

Tape backups are expensive and time-consuming to restore.

2

The Solution

A Cloud-to-Cloud Microsoft 365 solution that is cost- effective technically superior solution. Fast and accurate, highly secure with two-factor authentication.

3

Management Console

Extremely user friendly and intuitive management console, designed for effective real time management.

4

The Service

"Metrofile Cloud's customer service and support was exceptional. The team was readily available to provide support whenever required, even outside of office hours. They provided quick and efficient solutions, ensuring that SA Taxi's data was always secure and protected."

5

The Differentiator

SA Taxi could be confident in the reliability and security of their backup and restore functionality. It enabled the company to focus on its core business while providing a secure backup and restore solution for its data.
